

For Excellence in Organic Chemistry

April 7, 2006

Frank Gardner,
U.S. Environmental protection Agency,
Emergency Response and Removal Section II,
1 Congress Street, Suite 1100, Mail Code HBR,
Boston,
Massachusetts 02203

Dear Frank,

This is to confirm my telephone communication concerning the PRP Response.

Organix hereby indicates our willingness to perform the response activities required.

Our designated contact at Organix is myself:

Peter Meltzer, PhD, President, Organix, 240 Salem Street, Woburn, MA 01801 (781) 932-4142

As I mentioned on the telephone, we have secured the site, placed notices and repaired the fences. We have noted no trespassing since that time. We have met with and received proposals from four environmental companies and we are close to selecting one to begin site evaluation and initial remediation in compliance with EPA requirements. We hope to sign an agreement with the selected company next week.

Sincerely,

A handwritten signature in black ink that reads "Peter Meltzer". The signature is written in a cursive, flowing style.

Peter Meltzer, PhD
President
